COMMERCIAL RIGHTS & PROPRIETARY FILING NOTICE

Copyright © 2026 Leon Calvin Long II. All Rights Reserved.

1. PURPOSE OF DISCLOSURE This archive — including but not limited to the HyperChain X infrastructure, the SPONGE-X586 algorithm, the 32-Byte Singularity Rehydration logic, and all Seed Computing embodiments — is provided solely for public forensic audit, academic peer review, and individual research. These materials are *prototype demonstrations* and *method proofs*, not production systems.

2. INTELLECTUAL PROPERTY STATUS All contents herein are protected by pending patent filings and DOI-established forensic priority. Seed Computing, HyperChain X, and associated reconstruction protocols are proprietary inventions of Leon Calvin Long II.

3. COMMERCIAL USE RESTRICTIONS Any commercial deployment, revenue-generating use, institutional integration, or incorporation into corporate products is **STRICTLY PROHIBITED** without a separate, written Commercial License Agreement. This includes — but is not limited to — derivative works, rebranded implementations, or modified embodiments of the method.

4. LICENSING & ACQUISITION Commercial licensing, “Freedom-to-Operate” rights, royalty agreements, and “Sole Use” acquisition inquiries must be directed to leon.axiomaticengines@gmail.com

5. NOTICE TO INCUMBENTS Unauthorized commercial use of these Axiomatic State Reconstruction protocols constitutes intellectual property theft and will be pursued accordingly
